CHPSE Testimonials

Completing the Certified HIPAA Privacy Security Expert (CHPSE) course has been a challenging and growing experience. The course covers a vast amount of information but is flexible and allows you to complete at your convenience. This is a resource I intend to use as I move forward in my role on our HIPAA team. I also feel it necessary to mention the customer service from the Supremus Group during this process. They have responded to all questions promptly and with the information requested. I would recommend this training to anyone looking to expand their knowledge and understanding of HIPAA Privacy and Security rules and requirements.

Thank you

Hilary Frank
HR Operations Coordinator
Kforce Professional Staffing

The Supremus Group's HIPAA Privacy Security Expert (CHPSE) program was a very challenging experience. The training programs provided covered the full spectrum of knowledge necessary for HIPAA Compliance. As a Security and Network Architecture Consultant, the program challenged my skills and allowed me to attain a certification that will allow me to provide a higher quality of service to my clients and it gives a professional certification to show my mutual investment as a Business Associate.

Kirk Crespín
Digital Connections
Network Consulting

I spent a great deal of time reviewing the many programs offered on-line for the various levels of Hipaa Certification and the contents offered in each study program before making my decision to invest in the CHPSE Course offered by The Supremus Group. Not only was I looking for a course that was very detailed in the information but also a company that had national and international recognition. I found both with The Supremus Group! The various subject matters covered in the course did give a general overview but then continued on into very definite details and useful examples in the areas of Hipaa Law requirements for the Hipaa Privacy & Hipaa Security Rule and making your health care organization Hipaa compliant. The course also covered changes in the Hipaa regulations due to the HITECH Act and ARRA which will serve as valuable knowledge throughout my career in H.I.M. The Power-Point slides and the lecturer for the course were both excellent at capturing and holding your attention and the course study book will serve as a great ongoing reference tool. Last but certainly not least there were more than a few times throughout the course that I had questions and there was not one time that they were not answered for me right away after submitting them via email.

This is an excellent company with an excellent product!

Thank You Bob Mehta and Supremus Group!

Ella P. Gardner
H.I.M.
Northern Michigan Regional Hospital

I found the CHPSE online course to be the perfect combination of live lectures with slideshow, book work including review questions and practice test. Any individual who reviews the provided materials will definitely pass the certification exam with no problems. I think every HIPAA Officer would benefit from this extremely informative and useful course. Overall the course was easy to use, materials were very educational and the consumer service was top-notch!

Martha Wewer
NC State Health Plan

As an IT professional and Trainer, I found your online lectures very helpful and complete. This training and your templates have been a great help to me in providing compliance services to my client's. Thanks again.

Duane Ragland | Systems Engineer
IT-on-Demand.net
MCT, MCITP, MCTS, MCSE, SCNP, CCNA, CHPSE

It has been nine months since I passed the CHPSE exam. The exam was challenging to take. However, I felt that the study guides and on-line training were thorough in preparing me for the exam. I have been able to utilize the CHPSE study guides as reference material in my everyday role as HIPAA Access and Risk Control Manager for my healthcare clearinghouse client. I recommend the CHPSE certification to anyone who is serious about obtaining a comprehensive understanding and expertise in HIPAA/HI-TECH ACT.

Walter Boyd

I am the Controller for a company that provides document management services to attorneys. As a Business Associate, we needed to understand how to be in legal compliance with the contracts we have with Covered Entities as well as the statutes set forth in the HIPAA laws. The comprehensive CHPSE class gave me the tools to do just that.

Keri Grimmatt / Controller
XACT DATA DISCOVERY

I am very happy with the CHPSE course. I felt I knew HIPAA pretty well, but realized there was much more to compliance than protecting patient charts. I have used the information provided by you and my instructor to review our policies and procedures and develop a true compliance program for our employees. I would not have the confidence to proceed as I am without attending your class.

Michael Popp

Excellent material and exactly the complete and current Hipaa training that I needed. I highly recommend the video training along with the student guide for reference.

Dan Mckenna
IT Director
Plymouth, Ma

The online HIPAA course was very detailed and informative. The HIPAA Training and Certification Guide that goes along with the online course is a great tool, and is a resource that I will continue to reference in the future. As my organization's dedicated Compliance Officer, I chose to take the CHPSE course. I would highly recommend this course to anyone seeking a comprehensive understanding of HIPAA, and anyone tasked with the privacy and security of their organization.

Heather MacDougall
Director of Human Resources
Gulfshore insurance

Student's testimonial for class room HIPAA training:

My experience at this HIPAA training was phenomenal, I have a better understanding for the Privacy and Security regulations of HIPAA, and the materials given to me will benefit me not just for class, but also at work in the real world.

Zabrina Prescott
Cardiology of Tulsa

CHPE Testimonials

The healthcare vertical continues to march towards an ever increasing digital delivery model. Along with this change arrives enhanced risk involving patient health information. It is the obligation of all stakeholders involved in the delivery of care and especially providers to maintain a high level of subject matter expertise concerning HIPAA and HITECH related compliance policies and procedures. The training I received from HIPAA TRAINING.NET was up to date and relevant resulting in my ability to pass the CHPE exam. I would recommend this course to anyone interested in gaining a more formal command of the relevant HIPAA Privacy related requirements.

S. Vincent Grasso, D.O.
Informaticist / Business Analyst / Surgeon
Chatham, New Jersey

Strengths of the course: Flexibility of the online format, instructor was highly knowledgeable in HIPAA and in all InfoSec areas

The course allowed me to become very well equipped to serve in the capacity of the privacy and security officer role to protect our PHI and ensure our compliance with HIPAA regulations. The one-on-one instruction permitted the format and pace of the course to be tailored to my needs. The course materials were very good in they provided an introduction to the broad concepts—tying them together—then went into more detailed information. I would recommend this class and Instructor to anyone needing HIPAA training. Although the website used to deliver the training experienced some glitches one day, we worked through the minor annoyance. The benefits of the one-on-one training greatly outweighed the glitches and would recommend it.

Jennifer Kostick
NIST

"The hipaatraining.net CHPE course gave me an excellent opportunity to develop my understanding of the past, present and future compliance issues associated with HIPAA. Each of the instructor's presentations focused on the specific issues faced by covered entities, and the test questions allowed me to view the various regulations from the perspective of a DHHS investigator. I look forward to using the information I learned in developing my law practice and resolving the specific HIPAA-related issues of my healthcare clients."

-Amit Trivedi

Anyone seeking a more comprehensive understanding of the HIPAA and HiTech rules and regulations should consider taking the Certified HIPAA Privacy Expert course through the Supremus Group. After taking this course I have a better understanding of the administrative, physical and technical aspects of the HIPAA regulations enabling me to stay HIPAA compliant on the job.

Carol Cox
The Denver Hospice

I found the course to be extremely informative. I had basic HIPAA knowledge prior to this training. I now feel comfortable in my title as Privacy Office. The course material and handout information are excellent references. The instructor was very insightful and kept my interest throughout the program. This program was money well spent.

Phyllis Jacobs, RHIT
Director of Health Information Management
Yoakum Community Hospital

The course training was a very detailed, thought-provoking explanation of the HIPAA privacy requirements. The instructor was very knowledgeable of all aspects of the HIPAA privacy Training and security rules. The course has prepared me to address office, departmental and individual privacy issues.

Sue Hilkemeyer
Missouri Consolidated Health Care Plan

The CHPE coursework is very intense. It covers all of the required elements that are needed to get you prepared for the final exam. I would highly suggest that you take sufficient notes during the course if you don't purchase the book. I would highly recommend printing off the addendums. I was extremely pleased with the way the coursework was presented. If you are wanting to enhance your knowledge base, this course will definitely do that.

Thanks so much!!

Stephanie M. Giberson, RHIT, CHPE

CHSE Testimonials

The course content was comprehensive and extremely informative. It was more informative than what I expected for an "on-line course", and having an actual lecturer speak the slides in the presentation, gave me an opportunity to retain more of the information. I just wish the test wasn't so hard!! :)

Kerry Hannify
Data-Mail, Inc

I wanted to take a few minutes and thank you for the quality product from the Supremus Group. I had recently checked with some friends in the healthcare industry about HIPAA certifications and they pointed me to your website <http://www.hipaatraining.net>.

After spending some time on the website, I decided to purchase the Online Anytime Training and associated manual for the Certified HIPAA Security Expert program (CHSE). Well, I have to admit that I was a bit anxious going forward with this computer based training, but as soon as I received it I was pleasantly surprised!

The online training is broken into real-world modules and chapters that parallel exactly what is being taught in the book. By using the combination of the two, I was able to pass my CHSE test on the very first attempt.

I strongly recommend this course material to anyone who wants to prepare for the certification and wants to enhance their knowledge in the area of HIPAA security. I feel that I am now able to better contribute to corporate security policies, access control systems, and many documented procedures in a more-comprehensive manner after my training.

Thank You Bob and Supremus!!

Thomas Coffy - CISA, CISSP, CHSE
Senior Engineer, IT Security Office
Abacus Technology Corporation
Kennedy Space Center Florida

This was a great and informative course that provided extensive background knowledge on HIPAA requirements. The book and on-line instruction were invaluable in assisting our company to understand and develop policies that were applicable to the unique structure of our BPO projects. I highly recommend anyone seeking a more comprehensive understanding of HIPAA Security Standards to take this course.

Detra Jackson
Telamon Corporation

When deciding on a HIPAA course to take I had reviewed a number of vendors offering a range of courses. I realized that for my needs, IT technical, I would not need a course that covered all of the transactions and other information that a practice manager would need. After careful consideration and a few conversations with Bob Mehta of the Supremus Group I decided that their CHSE course was a good fit. I took the on line version which enabled me to fit the training in at my pace and during times that were good for me. Running a business and a family was more taxing than I had originally thought. I was able to better work around these issues with the web based course. The course was thorough and detailed. I was able to obtain a practice test that helped me better prepare for the final exam. I recommend this course to anyone.

Robert Lane
ASE, Inc.

The Certified HIPAA Security Expert training was phenomenal. Computer Based Training (CBT) is a great learning experience for me combining visual, audio, and hands on application using the practice exam.

The CHSE materials were well organized, concise, and flowed logically for such a large amount of legal and technical IT information to understand.

Jim Czerwonka
SDGblue, LLC
Compliance Specialist
Louisville, KY

The anytime learning course offered by HIPAAtraining.Net allowed me to take the training needed for the CHSE (Certified HIPAA Security Expert) on my schedule. It provided me with the flexibility and time needed to understand the topics fully, and being online it allowed me to access the materials anytime I needed... It was like have a private instructor in my living room!

I highly recommend the "Anytime Training" from HIPAAtraining.Net if you need to train on your terms and location. The material was complete and presented in an easy to understand format.

Ed Sorensen
Information Security Administrator
Jupiter Medical Center

I would like to take a moment to express my thanks for your wonderful program, the CHSE course.

In our ever changing world of technology, I was beginning to feel a bit lost in regards to the regulations and what meets the criteria of security of our electronic and digital PHI (ePHI) for HIPAA purposes.

This course has really given me a lot of insight and understanding of how HIPAA security is applied in the realm of technology. It has expanded my knowledge in the areas of how security and privacy rules relate to technologies both in and out of the office (mobile media).

It has also helped me work on a implementing a strong security policy, advanced safeguards and a comprehensive risk assessment plan for my organization.

Stephen Engel - Administrator
Summit Home Health Care

TO Prospective candidates taking the Supremus Group CHSE course:

Taking this course on line was not as easy as my ASQ certification as a Quality Auditor. It is demanding and I feel very worth your time and efforts. The structure and accompanying audio is very good in content and listening. I highly recommend it to people employed in the Medical field.

William E. McLinn
Telamon Corp

CHSE is the 1st course I have been on with Supremus Group LLC and it has been excellent, the trainer was able to adjust the program to my specific needs, and the study materials were top notch.

Justin Bowen
St. Vincent Healthcare

CHPA Testimonials

As a Systems Engineer working to specialize in the security area of the IT industry, I chose the CHPA as the first step along the security path in my career. This test proved to be a great entry level certification for HIPAA compliance. The exam and course was well documented and allowed for a beginner to truly grasp the concept and ideas behind HIPAA.

Kevin Kruger
Technical Projects Systems Engineer

This class is the most comprehensive and detailed hipaa class I've taken. The material was presented very clearly and explained thoroughly. It was far and away better than all previous Hipaa classes I've taken.

Tiphanni Chamberlain
Mint Dental
Alaska

This class has given me the expertise to bring our facility into better HIPAA compliance and continue on with a strong program. I would not be able to do what I am doing without my training.

Michael Popp.
HIPAA Compliance Officer
Peter Christensen Health Center

I found this course extremely beneficial. It not only covers the core issues but also designed to develop deep understanding of the subject matter in HIPAA I highly recommend this to all the people who intend to take the certification. It is great for even people who believe in self study. In spite of vast subject matter, the guidelines given have been greatly helpful

Thank you so much for all the support and guidelines.

Barkha

The program helped me understand more about HIPAA, in many ways. At first, I thought HIPAA was a law that keeps a covered entity from releasing any information on the insured, but when in took the program I understood that there is more to HIPAA. Since I got a better understanding of HIPAA, it has made it easier for me to explain to our members and help make them more aware. I'm glad I had the opportunity to take this program.

Thank you for your time.

Respectfully,

Hilari Panaguiton
Customer Service Representative
Calvo's SelectCare Health Plan
The Shams Group

The CHPA course was extremely helpful in learning and understanding the regulations and background for HIPAA. I strongly recommend this course for anyone in the healthcare industry.

David Park
Principal Consultant, Cloud and Security
Verizon Terremark

This course provides lots of HIPAA awareness and both the chapters with audio is helpful to understand in detail with live examples.

I strongly recommend to all health care professionals and Business Associates to register and take these certifications. This will not only help you to certify but it will be great help in job as well.

Thanks
Owais Ali (Allen)
Human Resource (HR)
The Shams Group

I really found the CHPA Certification Online-Training Course to be beneficial for myself; as well as all specialties and areas of healthcare for both Clinical/Medical and Administrative purposes. I have over the 15-years of corporate experience in Administrative Healthcare as both a Medical Executive Committee Board Member and Credentialing Specialist. I found this program a wealth of knowledgeable information on how to better protect and work with PHI and other miscellaneous privileged information for credentialing confidential documents.

The Online-Training Course was extremely thorough in explaining HIPAA Guidelines, Policies and Regulations. Successful in assisting and providing me with all explanations and descriptions of the HIPAA Uses and HIPAA Disclosures under the HIPAA II Administrative Privacy and Security Rule.

Supremus Group LLC offers a convenient in-depth PowerPoint presentation and outline, easy to understand in the comfort of your work space or home. The program covers useful topics such as minimal necessary transactions, when mandatory reporting applies, limited data sets pertaining to business contacts and government agencies; as well as Federal and State Laws; sanctions or consequences for breaking or breaching HIPAA, and how to report a breach to a HIPAA Officer. The program even offers an in-depth training on how to provide and be compliant with HIPAA security for logging into and accessing servers, workstations and hardware where PHI exists and/ or can be accessed.

Excellent certification program and highly recommended for ALL healthcare professions.

Sincerely,

Jenifer A. Polk
Staff Credentialing Coordinator
Continental Anesthesia, Ltd

CHPA HIPAA Certification Course is a well-defined, concise-yet-detailed approach on understanding how HIPAA works and how it is relevant to your line of work. They even offer sound consultation on how a specific course would better fit your demands. A must for any startup business in the healthcare field.

Vincent Henson
Transmedicus Transcription Services

This course provides lots of HIPAA awareness and both the chapters with audio is helpful to understand in detail with live examples.

I strongly recommend to all health care professionals and Business Associates to register and take these certifications. This will not only help you to certify but it will be great help in job as well.

Thanks

Owais Ali (Allen)
Human Resource (HR)
The Shams Group

The Course for the Certified HIPAA Privacy Associate is extremely helpful in the regards our company has a few Business Agreements with some Labs and other physicians offices and I learned that we need to monitor their employess security in our system as much as we monitor our own. I do believe I'm going to look into our New Employees go through this course or something similar so they will no the dos and don'ts regarding HIPAA and Security.

Dawn Talley, CMC
Operations Manager
Renal Specialists of Houston

I would recommend anyone who works in a healthcare setting, or who deals with HIT on a daily basis, to take this certification! I work for a HIT software company, and most of our employees have taken and benefited tremendously from this course. Educating all of our employees, so they have a full understanding of HIPAA Privacy and Security Rules, will help our company make certain we maintain HIPAA compliancy when dealing with PHI.

Thanks,

Omeed Shams
The Shams Group (TSG)

The course was helpful by giving real life example of how the policies were applied. This was a good review of what HIPAA entails. I can truly say that I learned so much from this training.

Linda Fuentes
Accounting Tech. II
SJSU Student Health Center

I am really thankful I found Supremus Group LLC for the HIPAA Training course. Mr. Mehta went above and beyond to help me with the training and test process. He kept encouraging me not to worry or give up and that I would do well. Overall I was able to get motivated by his encouragement and would highly recommend this course be taken if anyone is taking the online HIPAA exam.

Nikkita Clark
Medical Records Supervisor

The CHPA Certification Training course provided through HIPAATraining.net is a very thorough and well-organized training program. If you are looking to understand the complexity of HIPAA law and subsequent laws that deal with patient privacy and security, this is the course to take.

Lenox Powell, CO

Having remembered the painful experience of typical online courses, I was not necessarily ecstatic to undergo this course. However, I found that this online course through Supremus Group was actually surprisingly informative and helpful. I took on a new position at work where it will be necessary to follow HIPAA laws. Through this extensive online training, I realized how it would have been beneficial for me to have gone through this course even as a personal trainer years ago! Though the course was easy to follow, it did not sacrifice quality, pertinent information, or real world application.

Kali Knapp
Work Strong Coordinator
Irvine, CA

The Certified HIPAA Privacy Associate (CHPA) online certification course was of immense benefit to me as I was able to learn the HIPAA requirements with regards to confidentiality, Integrity and availability as it applies to Health Records. I particularly appreciate the sections that discuss privacy protection without hindering quality patient care and compliance issues.

John Adetunji Oyeleke

The CHPA online training for me is superb. Although we have several training sessions here, I find this online an enriching experience. The trainer, slides are all well prepared. I really look forward to having some more in the future for us to kept apprised and always be reminded of the possible penalties if we violate this privacy rule. From the trainer and to all those who helped prepare the stuffs, thank you for the knowledge imparted.

Arlene B. Matanguihan, CPHM
Utilization Management Manager
Calvos Insurance

HIPAA Certifications FAQs

QUESTION: What are the different HIPAA certifications available?

Certified HIPAA Privacy Associate (CHPA)
Certified HIPAA Privacy Expert (CHPE)
Certified HIPAA Security Expert (CHSE)
Certified HIPAA Privacy Security Expert (CHPSE)

QUESTION: What are the main differences between them?

Certified HIPAA Privacy Associate (CHPA) Certification is an entry level certification for those who are seeking HIPAA basic overview training. This is an ideal course for new hires, students and the common workforce who need a general awareness of HIPAA.

Certified HIPAA Privacy Expert (CHPE) is an essential certification that will help you understand the HIPAA law requirement for the Privacy Rule & a basic overview on HIPAA Security Rule and guide you on how to make your organization HIPAA compliant for the Privacy Rule.

Certified HIPAA Security Expert (CHSE) course will help you to understand the HIPAA law requirement for the Security Rule & a basic overview of the HIPAA Privacy Rule and will guide you on how to make your organization HIPAA compliant for the Security Rule.

Certified HIPAA Privacy Security Expert (CHPSE) will help you to understand the HIPAA law requirement for the HIPAA Privacy & HIPAA Security Rule and guide you on how to make your organization HIPAA compliant.

QUESTION: How can I compare the course outlines for all four certifications?

To compare the course outline, please visit http://www.hipaatraining.net/hipaa_overview.htm

QUESTION: How can I view the demo of the course?

To view the demo of the course, please visit <http://www.hipaatraining.net/hipaa-online-course-anytime/free-online-hipaa-training-demo.htm>

QUESTION: Once you sign up for the online course, how much time does a student have to complete the online course and test for the certification?

For the CHPA you have 2 months to finish the course & exam. For the CHPE, CHSE and CHPSE you have 6 months to finish the course & exam.

QUESTION: Is there a certificate that is electronic rather than hardcopy?

After you pass the test, you can download the PDF file for your certification which you can save for your use OR print it for a hardcopy of your certificate.

QUESTION: Does your program allow for international students to take the online HIPAA course and HIPAA test?

Many Business Associates like medical transcription, medical billing, IT servicing companies, consulting companies, data hosting companies, insurance brokers etc... who are servicing healthcare & the insurance industry are based out of the USA and have to be HIPAA compliant. These companies can go through our online anytime training. You can also take the exam online from any part of the world at any time.

QUESTION: Once an individual is certified, how is that certification maintained? How often does the certificate require re-credentialing?

With frequent changes in the health care industry and to the HIPAA Rules, currently the certificate is valid for 1 year. You will NOT be required to take any new test after a year, only a paid update course (if rule changes) will be needed. If there are no updates to the regulation then you will get the new certificate.
